

## OUBLIISM

The signatories of *Oubliism* have, under the glare of a nuclear starburst

Committed  
to Shed tears

## OUBLII!

Our tidal encounters conceive new physical realities from which we will harvest fresh perspective.

OUBLIISM symbolises the most fundamental relationship with the surrounding reality; with Oubliism new worlds and systems are perpetually borne from the ashes of a withering civilisation.

we disown this life  
With its simultaneous confusion

Of  
Chaos noise disorder

Of  
light separated in a rainbow

We are gathered here to proclaim the birth of an Oubliist physical reality where extragalactic rhythms are captured

At a star formation rate

by the sensational shouts and fever of its temerarious continuum psyche  
and in ALL its destructive interference within reality.  
Here lies is the cross faded apogalactic line between Oubliism and all other physical realistic trends.

To herald the genesis of cosmic time, Oubliism refuses the atomist attitude towards existence. It tears to fractions  
all those grand words like ethics, culture, humanism, good, evil, beginning, end,  
which are only covers for

All-too-rational people

those who drown in matter-of-fact swamps

## THE IQM 08279+5455 METHOD

turns words into spirited forces. The letters of the word "planet" smashed and reshaped into globular clusters.

Oubliist inverts current norms  
Invents fragile forms  
Aligning itself not to the symmetry of reason but to

POSSIBILITIES that forms of expression live in all physical realities.

Modernist architecture reconfigured into dance on stage,

Botany explored for its sonic possibilities

it spreads cacophony, dissonance, atonality and indeterminacy

over all the continents

The word Oublil shows the intergalactic nature of a movement which is bound by no golden ratio, or physical laws. Oublil is the inconceivably vast expression of our cosmic time, the great rebellion of revolutionary movements, the physical realistic reflexion of all those many frictions, human struggles and clashes that surround us.

Oublil demands the use of

#### NEW MATERIALS IN THE READING OF THE WORLD

Oublil is an organisation which has been founded in London which you can join without turbulence. Oublil is not some pretext to bolster up the pride of

a few neo thinkers (as our enemies would have the world believe).

Oublil is a state,

you are an oubliist or your aren't. Out of Uncertainties.

To be an Oubliist means

being thrown with angular momentum by events,  
being against matter that settles to the bottom of the abyss; but  
it also means putting your life in a vacuum... One says yes  
to an existence that seeks to grow by negation.

Down with atomist-aesthetic-ethical tendencies!

Down with failed innovations!

Down with the literary hollow-heads and their theories for improving the material universe!
